PRESTASHOP ECOMMERCE SOLUTION

Compatibility

This module is compatible with Prestashop 1.6.x

Installation

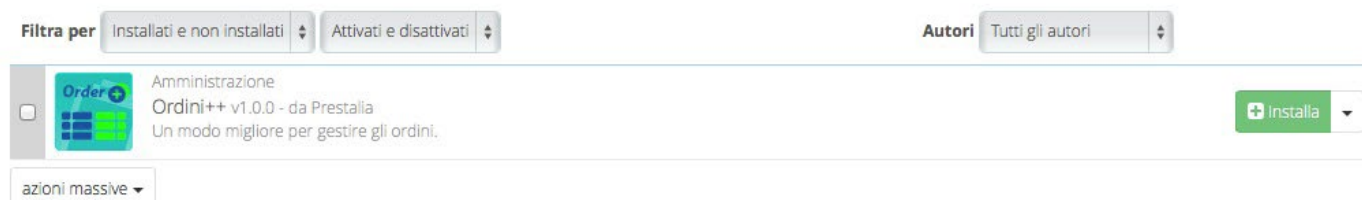

For install the module on Prestashop:

Enter to your Prestashop back-office and select Menù -> Moduli -> moduli

Press the button “Add new module”

Choice the files .zip and press the button “upload”

Search the module name and press “Install”

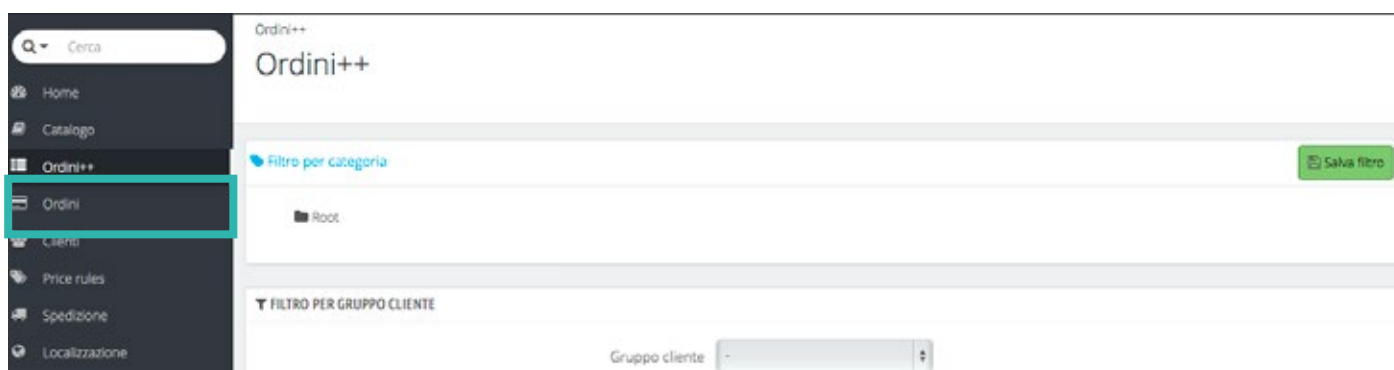

Once the installation is complete, you can configure it by clicking the “Configure”

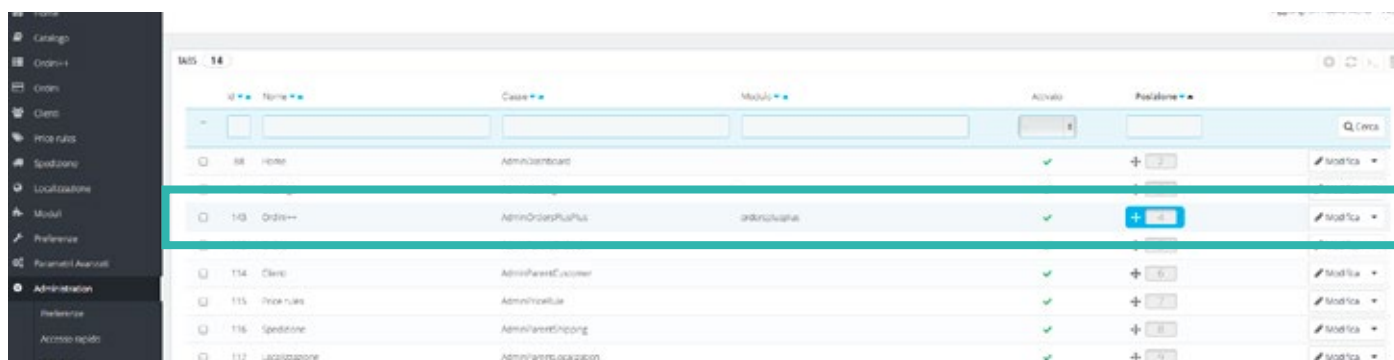

Description

This module allows you to save time, optimize your work and have a better warehouse handling. By choosing Order++ you could customize the order list and choose the columns to show, add new fields, highlight lines with a specific order status, view products thumbnail images and filter order list by category and customer group.

After installing the module, on the main menu appears a new entry “ORDER ++”.

You can manage the position of the new menu item entering:
Administration> Tabs

You can change the settings by clicking the button at the top right of the module page

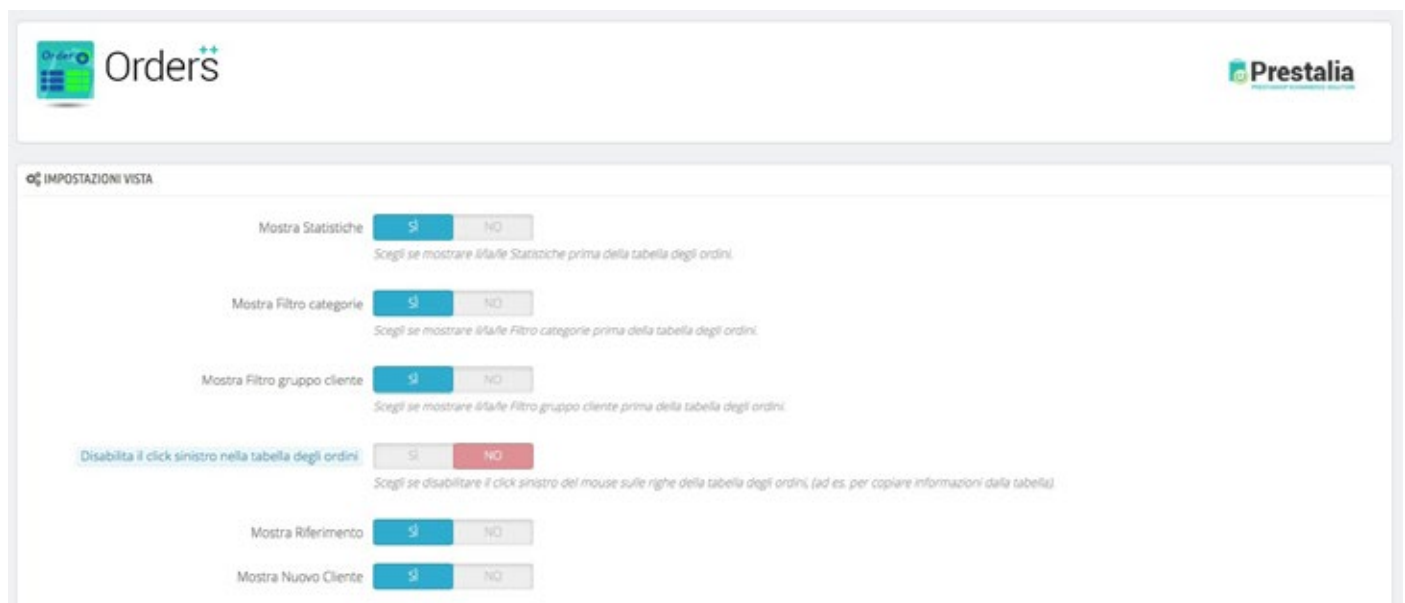

Configuration:

You will be able to handle the following options in the module configuration:

- Advanced search filter by: Categories, Customers group, Company, DNI, VAT Number, Title, EAN and product Reference;
- Enable/disable left-mouse-click to enter in order detail sheet;
- Enable/disable order cancelation;
- Enable/disable showing marketplace order reference (eg: Amazon, cDiscount, PixPlace);
- Enable/disable shipping information (carrier, weight and shipping costs);
- Enable/disable company, DNI / Vat number showing in order list;
- Enable/disable customer shipping address in order list;
- Enable/disable the summary of the products inside an order, including picture thumbnail;
- Select the thumbnail format to show;
- Enable/disable the highlighting of the product quantity label if same products in an order are more than a specified quantity;
- Enable/disable custom markers (enabled/disable) with a custom label, for general-purpose usage;
- Enable/disable custom notes in order list with tooltip option and quick edit link;
- Enable/disable highlighting an order with a specific (configurable) status, with a selectable colour;
- Enable/disable showing statistics dashboard;

Module will permit filtering and ordering of all columns and it is full multishop compliant.

The screenshot shows the 'Orders' configuration page in Prestashop. The page has a header with the 'Orders' title and the Prestalia logo. Below the header is a section titled 'IMPOSTAZIONI VISTA' (View Settings). This section contains several toggle switches for configuring the order list view:
